

Hello,

Thank you for your interest in the Anti-Racial Profiling Project! We are pleased to announce the launching of our project and to share our ***Anti-Racial Profiling Project Launch Webinar*** with [Asian Americans Advancing Justice | AAJC](#). You can view a recording [here](#), and the presentation is attached for reference.

Rooted in the dreams of immigrants and inspired by the promise of opportunity, Asian Americans Advancing Justice | AAJC (Advancing Justice | AAJC) advocates for an America in which all Americans can benefit equally from, and contribute to, the American dream. Our mission is to advance the civil and human rights for Asian Americans and to build and promote a fair and equitable society for all. Advancing Justice | AAJC is a national 501 (c)(3) nonprofit founded in 1991 in Washington, DC. Our newly launched ***Anti-Racial Profiling Project*** expands our continued work on this important issue and offers resources and legal referrals for those impacted by the U.S. government's increased efforts to target and profile Asian American and Asian immigrant scientists and researchers, particularly of Chinese descent.
