# Murder of Vincent Chin 陈果仁

In 1982, the horrific baseball bat beating death of Vincent Chin on the eve of his bachelor party, and the miscarriage of justice that allowed his two white killers to be freed without spending a night in jail, ignited the modern Asian American civil rights movement and built a multiracial, multicultural coalition united for equal justice and human dignity which stands as a landmark of American history.

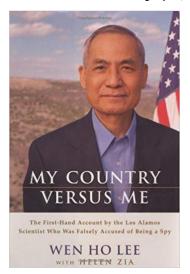

Jeremy.S.Wu@gmail.com

In 2022, 40 years later, the lessons of building solidarity and unity to obtain justice for Vincent Chin brings people together to counter division and hate, and inspire older and younger generations to link arms to work for positive change.

The Chinese Threat is Real: FBI Says
They Average a New
Counterintelligence Case Every 12
Hours

Christopher Burgess / Feb 8, 2022

"Of the nearly **5,000** active FBI counterintelligence cases currently underway across the country, almost **half** are related to China."

Christopher Wray, FBI Director July 7, 2020

"Traditional" FISA, which requires lengthy applications to the secret FISA court, was used in fewer than 500 cases last year. Section 702, which doesn't require individual court orders, can cover orders of magnitude more targets: more than **230,000** in 2021.

Dr. Michael Lauer head of NIH's extramural research

Science Editorial: "The institutions and the NIH need to resolve this. Given the information available in the public domain, the scientific community could easily conclude that this is a xenophobic program to harm Chinese scientists and cut off international scientific cooperation. The federal government needs to figure out a way to let the NIH and the institutions reassure the community that this is all worth it."

91% China

For **225** of the cases China was the country of concern.

85% male

**199** of the targeted scientists are men.

**81%** Asian

182 of the targeted scientists self-reported as Asian.

**53** banned

21% of 246 targeted scientists were banned from applying for National Institutes of Health grants. E9 The Washington Post
